

# BLOMSTER KASSE RIET

est. 2011

for the love of nature

Carefree everyday life for you and your plants.

## a few words about us

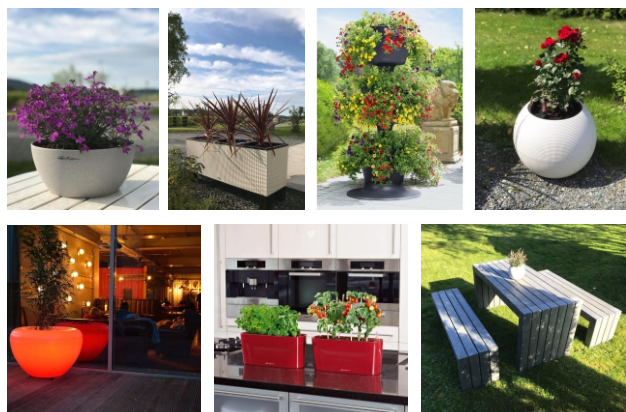

Blomsterkasseriet is an independent manufacturer of hand-made large wooden flower boxes from the heart of Norway since 2011.

All crates are manufactured using high-quality wood, which guarantees high product quality and durability. Crates are ideal for planting evergreen plants, small trees, shrubs, flowers and more.

Since 2017, I offer imported products from award-winning designers from Switzerland (Swiss Pearl), Manga Street (Denmark), Blive (Portugal), Hahn Kunststoffe (Germany), Lechuza (Germany) and Image'In Atelier So Green (France). These are mainly flower boxes, pots, vases, herbal pots, plant towers, etc. benches and tables.

From 2018, I also started to offer high-quality furniture from the same materials.

## why Blomsterkasseriet?

Our flower boxes are made with full care to ensure durability in Norwegian climatic conditions and ensure good vegetation conditions for the plant. Flower boxes are designed to create a good environment for you and your plants.

Most products are solid, environmentally friendly and recyclable products that care about what we love the most - our plants! Our dear flowers and other greenery.

We've built thousands of flower boxes for clients all over Norway, from Lindesnes in the south to Vardo in the north. The vast majority of products that we offer for indoor use are automatic watering.

We provide safe delivery of products directly to the door in the country and the whole of Scandinavia as previously agreed through our logistics partner.
